

basis setup Mailx

installeer mailx: `yum install mailx`

controleer of de link goed staat:

```
ls -al /bin/mail
```

```
lrwxrwxrwx. 1 root root 5 Sep 15 12:39 /bin/mail -> mailx
```

set de uitgaande smtp server:

```
vi /etc/mail.rc
```

test de werking:

```
echo "test message" | mail -s "test1" abelebo@zonnet.nl
```
